

Lister Hill Library at University Hospital Table of Contents Service (TOCS)

What Is It?

The Lister Hill Library at University Hospital (LHL@UH) offers a Table of Contents service to provide UAB clinicians with an easy and effective way to keep up with the biomedical literature. With this service, you will receive a weekly email with links to new issues of up to ten (10) journals that you select.

What is Included?

We can send you information for any journal that has an electronic table of contents available. Full text of a journal's articles may be available through UAB Libraries, while some titles will have abstracts only. In some infrequent cases, the publisher has placed an embargo on the most current content.

How Can I Get Articles Not Available to Me Online?

You may request copies of articles which are not available online through UAB Libraries (or are available only in print for older content) using our Document Delivery/Interlibrary Loan service (ILLiad). Visit the library's homepage at uab.edu/lhluh for details.

Please Sign Me Up!

Select the journals of interest to you. You may change your selections at any time by responding to your weekly email update. Return this form to *Table of Contents Service, Lister Hill Library at University Hospital, WP 235, or email to lhlwest@uab.edu*.

NAME: _____

DEPARTMENT: _____ PHONE: _____

UAB EMAIL: _____ (*UAB email address is required*)

I would like to receive the electronic table of contents for the following journals:

1. _____
